SUMMARY

As the certified SAP technology and security adviser I support big and middle size companies by the implementing SAP technologies properly and running SAP solutions efficiently.

My main fields of experience are SAP implementation & migration, SAP solution architecture, SAP basis, SAP application management and operation, IT- / SAP- security, SAP Big Data & Data Intelligence, SAP Process Orchestration, SAP Cloud (HEC).

Solid background in SAP S/4 HANA, SAP Fiori, Big Data, Cloud Computing.

Experience as technical project manager and team lead in national and international projects.

KEY SKILLS

Specialization	SAP Technology, SAP Security, Cloud
Sectors	Industry, Service, Public Service, Consumer Electronic
Education	Applied Mathematics, Dipl.-Math. / Kiev State University Information Technology, TU Munich
Certificates	SAP S/4HANA Conversion and Upgrade, SAP SAP Activate Project Manager, SAP ISO 27000 Foundations, TÜV Süd ITIL Foundation, Axelos Root Case Analysis Expert / Solution Manager, SAP
Trainings	Migrating Business Data to SAP S/4HANA; SAP Cloud Platform Integration Suite; SAP Model Company; Analytics with SAP Cloud Platform; SAP Data Hub; SAP Fiori System Administration; Converting to SAP S/4HANA; SAP S/4HANA Implementation Scenarios; Authorization Concept for SAP S/4HANA; SAP Activate; SAP Solution Manager 7.2 Delta; SAP Leonardo Design; Big Data & Hadoop; Software Development on SAP HANA; SAP HANA Cloud Integration; SAP HANA Authorizations & Security; SAP HANA Administration & Operations; Technical Monitoring in SAP Solution Manager
IT / SAP	SAP Technologies: SAP S/4HANA, SAP Fiori, SAP ERP, SAP BW/BI, SAP Analytics Cloud, SAP Data Warehouse Cloud, SAP Netweaver (ABAP / JAVA), SAP SLT, SAP Solution Manager, SAP Data Intelligence, SAP Process Orchestration, SAP Business Technology Platform (BTP), SAP HEC SAP Tools: SAP Activate, Migration Cockpit, SAP LaMa, SAP FRUN, License Administration Workbench (LAW), Security Weaver, Add-On Assembly Kit(AAK) Databases: SAP HANA, SAP ASE, Oracle, MS SQL Server Cloud: AWS, Azure, Kubernetes, Hadoop Programming languages: C, C++, Java, Python, Haskell, Unix Shell-Script

WORK EXPERIENCE

Duration: 10/2020 – currently
Client: SAP SE, Walldorf
Role: **SAP Basis Consultant, Solution Owner**
Assignment: **SAP S/4HANA Operation**

- SAP system landscape operations, updates and maintenance
- System hardening and security
- System monitoring and troubleshooting

Technologies: SAP S/4HANA, SAP HANA DB, SAP FRUN, SAP LaMa, Service Now, ITIL

Duration: 08/2021 – 10/2021
Branch: IT Service, Remote
Role: **SAP Technology Consultant, AWS Administrator**
Assignment: **SAP Data Intelligence (SAP DI) Implementation**

- Prepare AWS „Landing Zone“, AWS governance and the „baseline“ security
- AWS Kubernetes Cluster (EKS) plan, installation, configuration, monitor
- SAP Data Intelligence installation and configuration

Technologies: SAP Data Intelligence (SAP DI), AWS EKS, Kubernetes, Docker

Duration: 10/2020 – 10/2021
Client: SAP SE, Walldorf
Role: **SAP Basis Consultant, Technical Landscape Owner (TLO)**
Assignment: **SAP PI/PO Migration and Operation**

- Technical support by migration from SAP Process Integration (double stack) to SAP Process Orchestration
- SAP system landscape (more than 30 servers) operations, updates and maintenance
- System hardening and security
- System monitoring and troubleshooting

Technologies: SAP Process Integration (SAP PO), SAP ASE DB, SAP FRUN, SAP LaMa, Service Now, ITIL

Duration: 04/2020 – 07/2020
Branch: IT Service, Remote
Role: **SAP Technology Consultant, Microsoft Azure Administrator**
Assignment: **SAP System Migration to Azure Cloud**

- Prepare Azure landing zone, Azure governance, automation
- SAP system migrations to Azure Cloud

Technologies: SAP Netweaver, SAP HANA DB, Azure Blueprints, ITIL

Duration: 07/2018 – 06/2020
Branch: Construction Industry, Kiel
Role: **Technical Project Manager, SAP Basis and SAP Security Consultant**
Assignment: **SAP S/4HANA New Implementation (Greenfield)**

- Technical project management based on SAP Activate methodology
- S/4HANA, Fiori FES planning and configuration
- SAP Solution Manager configuration, system connection and monitoring
- SAP security concept for operation, system hardening, security monitoring
- SAP Fiori Apps configuration and authorization concept
- System- and client- copies
- Technical support by data-migration
- SAP MES (Orbis Add-On) installation and configuration
- Service Now integration with SAP landscapes (STA Add-On)
- SAP System operation and maintenance
- Know-How transfer and support by setting up the internal SAP Basis Teams
- Service-Provider Management

Technologies: SAP S/4HANA, SAP HCM, SAP Fiori FES, SAP MES / Orbis Add-On, SAP Solution Manager, Service Now, STA Add-On, ITIL, SAP Activate

Duration: 07/2017 – 06/2018
Branch: Consumer Electronic, Munich
Role: **SAP BW and Big Data Consultant, SAP Basis Administrator, AWS Administrator**
Assignment: **SAP BW and Corporate Data Lake operation**

- Operation and maintenance SAP BW4HANA, SAP BI, SAP Business Objects Systems in HEC
- Quarterly system updates
- Technical support by setting up and operation of Corporate Data Lake

Technologies: SAP BW4HANA, SAP BI, SAP Business Objects, SAP HANA Enterprise Cloud (HEC), SAP Data Integration, SAP Vora, SAP Data Hub, AWS, Hadoop / AWS EMR, Ancible, Remedy

Duration: 12/2017 – 01/2018
Branch: Consumer Electronic, Munich
Role: **SAP Basis Consultant**
Assignment: **SAP S/4HANA Maintenance and Upgrade**

- SAP Basis operations
- Upgrade to S/4HANA 1709

Technologies: SAP S/4HANA 1709, SAP HANA 2.0, FIORI, CHARM, SAP SUM, Maintenance Planer, Remedy

Duration: 03/2017 – 03/2018
Branch: Consumer Electronic, Munich
Role: **SAP Basis Consultant**
Assignment: **Data Center Relocation, SAP System Migrations and Operations**

- SAP System Migration by the server relocation to the new data centre
- SAP System operation and maintenance
- SAP MES (SALT Add-On) operation and configuration

Technologies: SAP Netweaver, SAP LVM, Oracle, SAP HANA, SAP Portal, SAP BW, SAP MES / SALT, Remedy

Duration: 08/2016 - 12/2016
Branch: Public Services, Bonn
Role: **SAP Security Consultant**
Assignment: **IT Security Concept for SAP Operations**

- Service Transition and SAP system migration
- Create IT security concept for SAP operations based on BSI/ISO27000
- Security audit, assessment and system hardening
- Automation of security checks and monitoring

Technologies: SAP ERP, SAP SRM, SAP Portal, SAP Solution Manager, DB2, AIX, QRadar, BSI / ISO 27000

Duration: 01/2016 - 06/2016
Branch: Professional Services, Munich
Role: **SAP System Architect, Technical Project Manager, SAP Security Consultant**
Assignment: **SAP S/4HANA System Conversion („Brownfield“)**

- Technical project management based on SAP Activate. System Landscape planning, system upgrade (“Brownfield”) and configuration
- SAP ERP 6.0 Migration to S/4HANA
- Implement Fiori Frontend Server (FES) for S/4 Fiori Apps
- Create and adapt user roles and authorizations and baseline security settings
- Installation and configuration of SAP Solution Manager 7.2

Technologies: SAP S/4 HANA 1511, SAP FIORI, SAP Solution Manager 7.2, SAP HANA DB, Linux, ITIL

Duration: 10/2008 - 03/2016
Client: Siemens AG, Munich
Role: **SAP System Manager / Team-Lead**
Assignment: **Management and operation of business critical SAP landscapes**

- Responsibilities for planning, implementation and optimal operation of SAP system landscapes
- Technical management of implementation and migration projects
- Technical leading SAP Basis Team (3-5 internal and external employees)
- Design and implementation of SAP security and authorization concepts
- SAP system hardening and security monitoring
- SAP license management
- Transport-, Patch- and Release-Management

Internal projects:

- Transition of service management and support to the “near shore”. Technical lead of distributed, international team. Training and know-how transfer. IT Service process tuning and coordination
- BW on HANA landscape roll out. Technical project management. Landscape installation, configuration and operation, security hardening
- Solution Manager Upgrade on 7.1, Willy Introscope, Business System connection and monitoring
- SLT landscape roll out, configuration and operation, security hardening & performance optimization
- System migration from ERP 6.0 EHP 7 to SAP Business Suite on HANA (DMO), Move system landscape to VMware instances. SAP Security Concept and authorizations
- Set up web based BI Reporting for monitoring of the technical system metrics
- Switch password login to PKI Card login. Secure system connections with SNC. Certificates management and Single Sign On (SSO)

Technologies: SAP Netweaver (ABAP, JAVA), SAP ECC, SAP Business Suite on HANA, SAP Process Integration, SAP BW/BI, SAP SLT / DEMIS, SAP Solution Manager, SAP LAW, Oracle DB, SAP HANA DB, Remedy, ITIL

Duration: 10/1999 - 09/2008
Client: Siemens Business Services GmbH, Munich
Role: **Senior System Engineer**
Assignment: **SAP Basis Operation of SAP Add-On development landscapes**

- Performed SAP System installations, migrations, upgrades: client- & system- copies
- Administrated, monitored and optimized SAP system landscapes
- Organized SAP-, DB- and OS- patch- and release- management
- Implemented SAP software logistics and SAP transport management
- Technically supported SAP Add-On development and Add-On lifecycle management

Internal projects:

- SAP Add-on uninstallation after Infineon Carve-Out (Singapore)

Technologies: SAP ERP, SAP Solution Manager, Add-On Assembler Kit, Oracle, Linux, Windows
